BEST BASEBALL PLAYED FOR YEARS AT CHAUVIN SPORTS

Visitors from near and far were in attendance in large numbers at the Chauvin Sports last Wednesday. The crowd, though not a record one, was above the average for numbers, and they all report having had a splendid time.

Chauvin was, as per usual decorated with avenues of green poplar trees, and her streets before and after the sports program, with the animated crowds of merry makers presented a gaily appearance and it is estimated that over a thousand adults and children were in attendance.

The baseball, always a most popular item on the program, was distinctly above the average. Entries having been made by Wainwright, Edgerton, Cadogan, Macklin, McAllister and the home team. Each team was playing a very good clean game and were in good form, with the result that several of the games might correctly be termed exhibition matches.

Owing to the length of the baseball program playing was continued after supper, and the final game was called on account of darkness. This was a particularly keen game in which neither side scored a run, resulting in a draw and an equal division of the first and second prize money between the combatting teams Wainwright and Cadogan.

The horse races drew a goodly number of the crowd and were of considerable interest. The local lady riders being in good form, whilst the prizes for the men's event were all captured by visitors.

A twenty-foot jump was made by Frank Broemline who captured the first prize, and keen interest was evinced in all the other events on the program of athletics.

The Chauvin and Ribstone basketball team lined up for a game at 6 o'clock. Neither team had their regular players, which proved difficult for the Ribstone team. In spite of desperate efforts Ribstone was unable to score in the first innings which closed with a score of 16-0. In the second half Ribstone re-arranged their players and put in some baskets. The score ended with a score of 24-5 in favor of Chauvin. Both teams played a good clean game and Chauvin is glad to have such good sports as the Ribstone players are to play against.

The Ribstone players were—Miss Chism, Jenny Price, Sadie Burton, Hilda Price, Minnie Clifford and Mrs. Bob Price.

The Chauvin team—Erma Hass, Heather Richardson, Annie Saul, Elma Hass, Florence Cahill, and Gretchen Richardson.

Messrs George Sawyer of Edgerton and Leonard D'Albertanson Jr. of Chauvin, our local radio experts, were on deck with their outfits. By combining their outfits they were able to overcome the large amount of static electricity in the air (owing to storms), and receive radio reports of the Dempsey-Gibbons fight for the championship, which had been relayed from Edmonton by the Edmonton Journal. These messages were announced by Mr. C. W. Ryall from the grand stand as they were received.

The moving picture show drew an overcrowded house with a good comic prelude, and a six reel comedy entitled "Making a Man." After this

show the hall was cleared for dancing, and with the good music provided by the Chauvin Orchestra the fox trots, one and two steps, etc. were keenly enjoyed.

THE BASEBALL TOURNAMENT

Six teams entered: Wainwright; Edgerton; Cadogan; Macklin; McAllister and Chauvin., and the tournament ran out as follows:—

Opening	Semi-Finals	Finals
Chauvin	Chauvin	
McAllister		
Wainwright	Wainwright (bye)	
Cadogan		
Edgerton	Wainwright	
Macklin	Macklin	Macklin

The first game was a distinct walk-over for the home team. The McAllister men are to be commended upon their plucky and sportsmanslike battle against overwhelming odds, their defeat was no shame to them at all.

LOCAL CROP REPORT

Frequent showers throughout the district with warm weather in the intervals continue to favor crop prospects, which are now most favorable. Some hail has fallen in the district, the damage being slight, barely 1 per cent. Pastures are good, and growing rapidly.

Several farmers have already increased their twine orders and there is likely to be a big last minute demand for this commodity, not only because the crops are heavy but because of the big growth of weeds on the poorly cultivated lands.

Over 3000 head of cattle are summering on the Forest Reserve. They are doing well, and a remarkable absence of disease is reported.

More Special Prizes

Mr. Gordon Cunningham has offered two special prizes for the Chauvin Agricultural Fair, August 1st.: For the best male or female purebred or grade Aberdeen Angus Calf sired by registered Aberdeen Angus Bull; 1st \$3.00; 2nd-\$2.00

LOCAL NOTES

An exchange of pulpits has been arranged by Revs. Millar and Mitchelson for Sunday, July 22nd. Rev. Millar will preach at Greenglade, La Pearl and Sulphur Springs, dispensing communion and baptisms. Rev. Mitchelson will preach at Prosperity, Airlie and Salt Lake.

Mr. J. MacKinnon of Artland, and Mr. S. Harris of Airlie, left Thursday for a vacation trip to Vancouver.

The next meeting of the Leatholme U. F. A. will be held at 8 p.m., Wednesday, July 18th. A good attendance is requested as business of importance will be brought before the meeting.

Mr Harry Scott of Artland has been appointed agent for the Rumely Oil-pull engines and separators.

Mr and Mrs L. Boucher left Chauvin Thursday last on a trip to Edmonton.

Mr. Wilson has had his residence remodelled and considerably enlarged. Mr. George Goede, of Chauvin, being the contractor.

Mrs. Sadlier and son are visiting Mr. and Mrs. Freeman.

Mr. and Mrs. J. Moffatt were visiting in Chauvin Friday.

Mr. and Mrs. Boucher left Chauvin last week and are making a motor tour to Calgary and other points.

Mrs. K. W. Coe, is spending a week visiting with Mrs. G. McNutt at Salt Lake.

Bathing caps, some real late designs in bathing millinery. Price from 50c. to \$2.00.

The Chauvin Pharmacy.

News was received from Edmonton, on Monday that Miss Ellen Borregard had been operated on for appendicitis, and at time of sending telegram that she was progressing very satisfactorily.

Hailstones And Ice Cream

Several hailstones have fallen during the past week. The damages to the crop were slight, some windows were broken, and considerable damage done to some of the gardens. One of these storms is remarkable for the sudden cessation of the wind just as the hail commenced to fall. As the stones in this storm were abnormally large (some going 16 to the pound) a very severe loss was fortunately averted.

So thickly did the stones the ground at the Price farm, that it was possible for the Prices to go out and gather enough ice with which they later made ice cream.—Nothing like making the best of everything.

Automobile Collision

An automobile collision occurred at Levesque's hill, some three miles from Chauvin last Saturday afternoon. A car belonging to Mr. Gagnon hitting the Macklin truck. Considerable damage was done to the heavy truck, whilst the Gagnon car was practically rendered useless. The occupants of the car, three ladies and the driver, escaped with a severe shaking.

SCHOOL REPORTS

The following is a report on the examinations of the Chauvin Public School: Grades II Sr., to VI inclusive.

An average of 50 per cent represents a pass to next grade.

75 per cent, with no paper below 60 per cent—a pass with honors.

Killarney Sunday School Celebrates National Birthday

The annual lawn party of the Killarney Sunday school was held on Tuesday at the Learigg farm, when a large representation of children with their parents and friends gathered to enjoy themselves and pay tribute to Canada's National Birthday. Owing to conflicting dates the celebration was a day late; but it lost nothing in enthusiasm by the delay.

After the party had assembled, and had been grouped on veranda and lawn the proceedings were started off by the singing of "O, Canada," after which the chairwoman asked Mr H. Foreman to give a little talk on the meaning of Patriotism. This, he did, and while addressing himself to the boys and girls—the citizens of to-morrow—he handled his subject in a manner which made it equally applicable and interesting to their fathers and mothers—the citizens of to-day. He described a patriot as a man who not only loved his country, but was willing to die for it, if need be, one who stood "on guard" for that country, in times of peace as well as in times of war. He told the children of the great privilege that was theirs of growing up in a land of big opportunities and rich resources, and of the necessity of a full appreciation of their privilege in belonging to Canada, if, in the future Canada was to be as prominent and outstanding a nation, as she showed promise of becoming now. He went on to tell of still another cause for pride of country in that over all waved the Union Jack—a flag which "for a thousand years had braved the battle and the breeze" of world conflicts and crises, and while so doing had won for itself the unique distinction of symbolizing freedom and fair play wherever it fluttered in the breeze. In connection with the power of the flag he told how at the outset of the Great War (to which Canada had been the first to contribute a quota of her gallant sons) just after the Germans had set a ruthless heel over little Belgium in defiance of all her former promises and treaties to the contrary, when Belgium's power of resistance was being beaten down by the overwhelming hosts of the invader, and the citizens of Belgium were in deep despair, the Mother Land upheld her ancient reputation, and the British consul draped the Union Jack over the balcony at the Embassy as a sign that Britain had entered the war on the side of Right against Might.

And all that night as the draped flag drooped low over the railing, men, women and children passing by in an endless procession, gratefully kissed the border of the time worn emblem which meant to them the promise of fighting aid from the nation whose word has always been as good as its bond.

In closing he advised the boys and girls to save up their five cent pieces to buy themselves a national flag, even if it were only a little one, so that they could hoist it on Canada's birthday, and other of our national holidays, as a sign that they were good patriots and proud to have been born under the Old Flag.

At the conclusion of his address, Mr Foreman was given a good hearty round of applause, after which, a regular program of sports of all sorts

was gone through. The little ones ran races, and played games, or patronized the swing seat and see-saw, while at the opposite side of the lawn an enthusiastic Father and Son football tournament took place, the fervour of which refused to be dampened by the rumblings of thunder, or the smart shower which drove the ladies and children of the party to the shelter of the veranda and back porch. Then old King Sol, with the charming way which is his in Alberta of drying up the raindrops with a sunny smile, asserted himself on behalf of the footballers, who were discovered however never to have noticed that it had been raining.

Refreshments in the form of candies, nuts and fruit were served during the afternoon, and, at six o'clock supper was served on the lawn in a blaze of glorious sunshine. The fragrant aroma of the coffee, and the variety and plentitude of the good things to eat which came out of mysterious boxes and baskets belonging to the ladies of the party, called a halt to the frantic

exertions of the juvenile peanut races and to the hither to total oblivion to anything but the "football" of the Fathers and Sons. After supper various cameras got busy taking impressions of the gathering in different ways, and on the side various married ladies displayed hitherto unsuspected skill in high jumping, while carrying a spoon wherein reposed the frivolous peanut.

As the sun showed signs of going down, the everyday claims of mixed farming methods began to obtrude themselves, and the significant phrase "we've got COWS to milk" was heard on all sides, causing a general move towards preparations to leave, whereupon Mr Foreman proposed a vote of thanks to the Armour family for the pleasant time that had been spent. Mr Armour suitably replied, and after a final cheer the happy gathering went off in buggies and cars to attend the business end of the farmers' day as represented by the COWS, likewise the chickens and turkeys and all the

many other things which go rounding out of the farmers' "perfect" day.

Sherlock Lake S.D. Will Not Build School House

A special meeting of the ratepayers was held on Saturday evening last. The business on hand was the advisability of building a school or not. The pros and cons were fully discussed and in the end on a vote being taken the result was:

For the School 8
Against the school 11
Should special circumstances arise the trustees will call a further meeting to discuss this question.

Good intentions may excuse, but do no alter wrong results.

Mraie: "Bob and Dot are not on speaking terms any more."

Marjorie: "Why I thought they were engaged."

Marie: "So they are. They just sit and hold each other's hands."

CHAUVIN SCHOOL TRUSTEES MEETING

The regular meeting of the Chauvin School Board was held at the school house at 8 o'clock p.m., on Tuesday, July 3rd.

The minutes of the last meeting were read and adopted.

An application was read from Miss Potts, of Medicine Hat, for the position of teacher, and this was allowed to stand over for the present.

Accounts: Chauvin Pharmacy, \$3.10 for sundry supplies to schools. Mr Foxwell moved, Mrs Saul seconded that same be paid. Carried.

Present: Dr Folkins (chairman), Mrs Saul, Mr Foxwell.

High School: The Board decided to continue all grades as at present constituted.

Teacher's salaries: After full discussion Doctor Folkins moved that this Board pay a salary of \$1100.00 for primary room, and \$1300.00 for the higher grades (7 to 11 inclusive). Mr. Foxwell seconded. Carried.

Secretary was instructed to advertise for one week in the Edmonton papers for two teachers at the above rates, mentioning age, experience, and protestant; and call a special meeting of the Board when the applications were in.

Discounts: After some discussion the Board decided to continue to allow 10 per cent discount on all current taxes paid up to the 31st day of July.

Chairman then declared the meeting adjourned.

New Attractions At Edmonton Exhibition

Very Large Attendance From Country Districts Is Anticipated

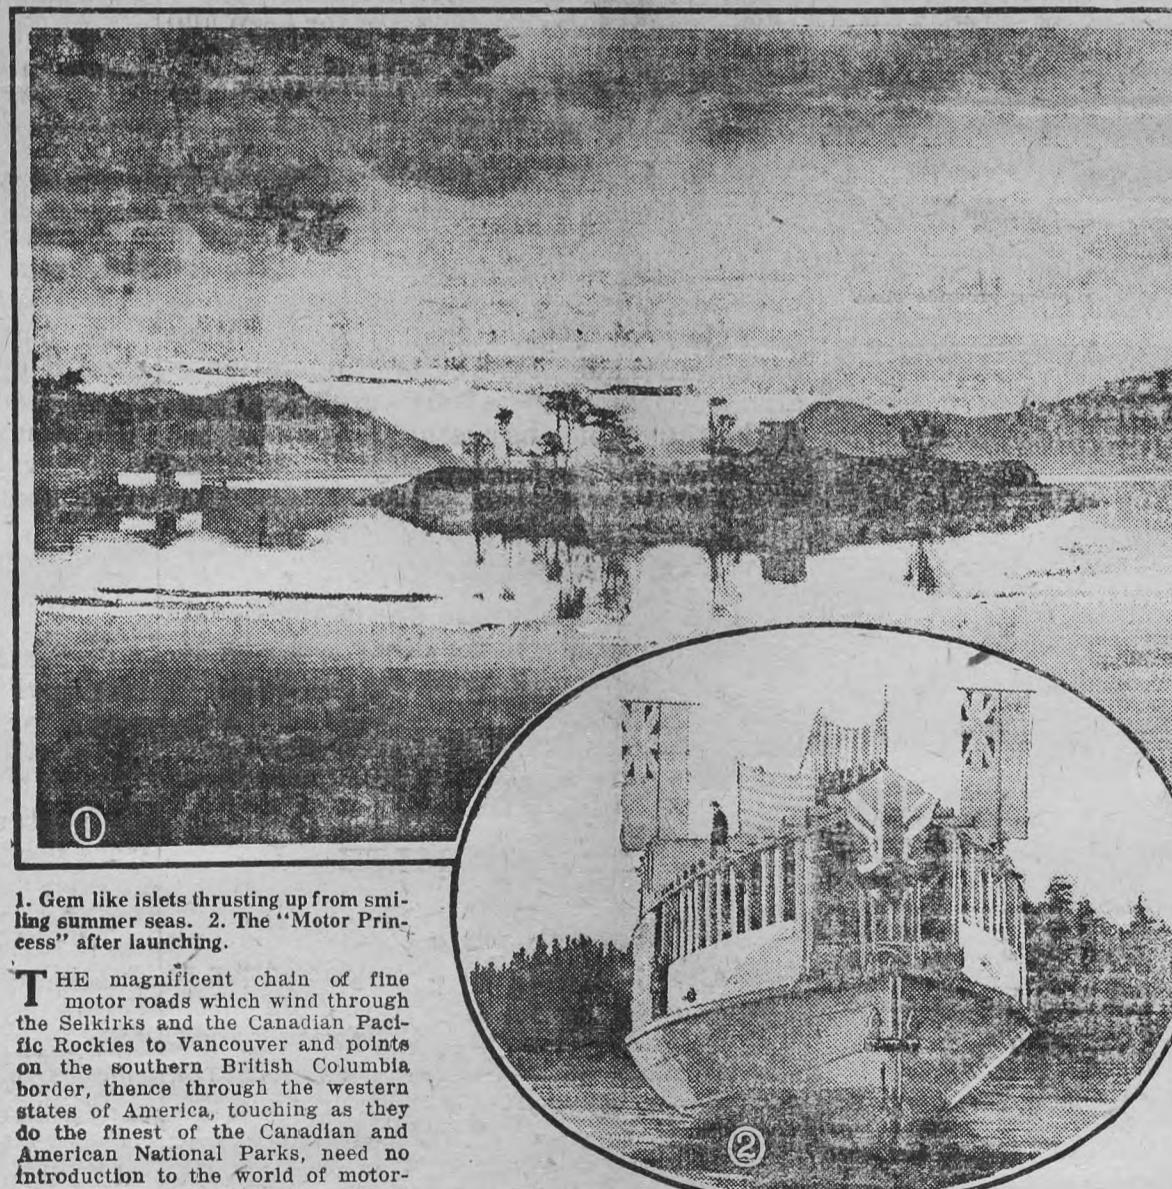

With new attractions and the best midway obtainable, and every inch of space allotted to merchants' and manufacturers' exhibits, the Edmonton Exhibition, which opens on July 16th, promises much entertainment to visitors.

There will be three new Federal Government exhibits—relief maps of Edmonton district, of great interest to settlers as they show drainage possibilities, etc.—a new Government fruit exhibit, and the National Dairy exhibit. This year, for the first time in some years, the automobile dealers are making a big display of the new models. One of the merchant's exhibits which will be of interest to women is a dressmaking demonstration for home sewers. A baby clinic will be held by the Provincial Health Department to which parents are invited to bring all children of pre-school age; hundreds of mothers take advantage of the weekly clinics held in the larger centres, but the country parents have not the same opportunity to take advantage of these free clinics.

The attractions are the best that can be secured, and, in addition to the grand stand acts, will include running horse races, auto races, chariot races, Roman standing races, relay races, and fireworks, as well as many other special local features.

With a free camp ground for motor parties, for which the Exhibition management provides tents or cots if desired, and with excursion rates of a fare and one-third, many visitors from outside points are expected.

Motor Transport Through West Coast Archipelago

1. Gem like islets thrusting up from smiling summer seas. 2. The "Motor Princess" after launching.

THE magnificent chain of fine motor roads which wind through the Selkirks and the Canadian Pacific Rockies to Vancouver and points on the southern British Columbia border, thence through the western states of America, touching as they do the finest of the Canadian and American National Parks, need no introduction to the world of motor-dom. Every mile of roadway, especially through the Canadian Parks where it has, in many places, been cut out of solid rock and at stupendous cost, has been built with an eye to easy travelling and scenic grandeur, and from early spring until late in the fall a continuous stream of automobiles, bearing licences issued in every town on the continent, pour along the highway. Nowhere else can the motorist obtain such a long run through such ever changing scenes of natural beauty.

During the past few years it has become quite the thing to motor through vacation time, and those who choose this way of holidaying are unanimous in their choice of a "hunting ground." British Columbia and the Rockies are not the things to be "done," because having travelled through them once means never to have willingly done with the country.

No less attractive on account of its

good roads, scenic properties and tourist accommodation is Vancouver Island. The city of Victoria at the southern extremity of the Island is the hub from which the "round the Island" and shorter roads radiate, and the town itself, with its broom decked hills, its thousand gardens, its avenues of hawthorne, acacia, lyburnum and other fragrant trees is the goal of all who having covered the scenic routes of the mainland would still enjoy the pleasures of the road without travelling the same road again, and those who are attracted to the island by its particular type of beauty, which is after the English style with "just enough of the tropics thrown in."

The passage to the Island is usually made by ferry from Vancouver, or Bellingham in the State of Washington to Victoria or one of

the west coast ports nearby. The Canadian Pacific Railway Company has this year put into service a new automobile ferry, the "Motor Princess," a motor driven vessel which operates between Bellingham and Victoria and which, with a capacity for fifty automobiles and well appointed accommodation for 250 passengers, plies twice daily.

The route traversed by the ferry is marked by islands, some of which are miles in extent, others gem like islets thrusting up from smiling seas, making the waterway a succession of pictures to which the most famous of salon hangings cannot compare. The lordly Mount Baker is also seen from the ferry to advantage, standing as it does in a mantle of dazzling snow amid the foothills of the mainland.

ENTRE NOUS

"He that is greatest among you shall be your servant"

In this fair land where we have made our home,
Our children's native land so soon to be,
Briton and Norse and Frank, each to their own,
Will cling by fondest ties of memory.
And this we understand, for it is right,
Yet each a comrade for the work in hand.
Knowing that all are worthy in His sight
Who toil and think and to the conflict stand,
Working together for the good of all,
True to our own, nor false to any man,
Live and let live shall be our patriot call,
Teaching with sweetness, learning where we can,
Nor shall survive by hating race or creed,
But each must strive in gaining friends, to lead.

THROTTLING THE NATIONAL

One is tempted to use the strongest invectives to condemn the action of the Senate in throttling so effectively the modest plans of the Canadian National Railroads for branch lines in the West. It is exasperating to realize that a small coterie of superannuated politicians have the supreme power of inflicting their prohibition on the much needed development of the West.

The days have passed when railroads in Canada plan unnecessary extensions and rush headlong into foolhardy schemes; before extensions are placed on the program of the companies the necessity for such and the capacity for profitable operation have been fully demonstrated to the public and to the company concerned.

The people of Canada are leaving no stone unturned to give all the traffic they can to the National roads. The officials of the National are working hard to give the public the best service possible, and also to make their road profitable. Big reductions have been made in the costs of operation in all departments, and a very careful revision of the time tables has resulted in a substantial reduction of train mileage, without impairing the service. So successful have these efforts been that the annual deficits have grown steadily smaller year by year.

Can it be that there are in the Senate a coterie of men who for other financial interests have no desire to see the National road blaze its road from out the slough of bankruptcy into the green meadows of prosperity?

PUBLIC HEALTH

Now that the fly season is in full swing we may be pardoned for calling attention to the necessity of preventing flies from entering the house and from contaminating food. The fly itself does comparatively no harm, but laden as he so often is with dirt and disease germs, he constitutes a real danger and a prolific medium in the spread of many diseases.

The next six weeks are the most dangerous in the spread of typhoid and other intestinal diseases, in all of which the fly is a most active medium of infection.

In cases where the presence of infectious disease is suspected it is the duty of the head of that household to notify the local councillor or the medical health officer, and a due inspection will be made without cost to the individual. Failure to comply with this regulation is not only a punishable crime in the eyes of the law but constitutes a real danger to other members of the community.

CHAUVIN'S FOLLY

This year Chauvin again carried out her pretty idea of lining her streets with poplar trees as a decoration for the annual sports day. So charming is the effect, and so greatly is it appreciated by visitors, that it is really a folly not to take the easy steps that would ensure permanent avenues along all our streets.

The space of a three foot boulevard could easily be spared on each side of our streets, wherein young poplars could be planted, protected by a plank curbing. With a reasonable amount of care for the first few years we could have one of the prettiest towns in Alberta.

WHEAT POOL ABANDONED

The idea of carrying out plans for a voluntary wheat pool in Alberta for the current year have now been abandoned. Though some movement in its favor is still being carried on in Saskatchewan. Obviously it is impossible to erect a trading concern of such magnitude within a few short weeks. So the wheel has turned round the complete circle and we are still on the same spot.

There is room for argument as to the sincerity of those leaders who first advocated a wheat board as a political issue and campaigned with this as a standard, but we would willingly give credit for absolute sincerity to the vast majority of those who did so. Our parliamentary leaders fully expressed their doubts as to the feasibility of the venture, and confessed freely that they were urged to action by the continued demands of their supporters.

The rank and file of us need no demonstration of the urgent need of the best marketing system possible for our produce, and may well be justified in looking for a wheat board to obtain a measure of profit for our year's labor. And we may be forgiven if we have looked for relief through political channels as the easiest method.

The question next arises; "What is to prevent the United Grain Growers Company, with its ally, the exporting company affording the service we demand?" We hear too little from them—so little, in fact that we may soon be tempted to believe that they have resolved themselves into companies which differ not one iota from other line companies. Surely it is time that we should hear a pronouncement from these organizations into which we have put our monies as to what service they can offer to us, and how far they can venture on our behalf in the line of business for which we have capitalized them.

NEW WAY TO MAKE JAMS & JELLIES AT HOME

FULL DIRECTIONS WITH EVERY BOTTLE

The new method of making jams and jellies is rapidly replacing the old-time, wasteful, haphazard ways. This new scientific method results in perfect jams and jellies from all fruits—gives 50 per cent more jam or jelly from the same amount of fruit—infinitely more delicious quality due to the retaining of all the original delicate flavor and color of the fruit which is ordinarily destroyed by long boiling, and a great saving of fuel and time because these modern-made jams and jellies require only one minute of boiling with all the guess work eliminated.

Road through Olson Farm: Secretary was instructed to advise the Lessee to open the gate at once in default of which sufficient land would be taken by the Municipality for the necessary road.

Clr. McCluskey moved that the meeting adjourn and that the next meeting of the Council be held a Chauvin on Saturday August 4th at 1.30 p.m. Carried.

Union School Picnic

Young ladies pummelling one another in an exercise work out for the basket ball, a horde of boys and girls yelling at the top of their voices, with among the features of the union picnic held at Ribstone, Friday, June 27. Cresthill, Ribstone, and New Ribstone having combined on this occasion to have a real good picnic.

The teachers, the Misses Cahill, Dominy, and Chrisholme, were early on the field making preparations and arranging benches and tables in the shade of the grove in Ribstone Park.

Sports began at 1.30; the following being the results.

Boys under 8: Cresthill.
Girls under 8: Ribstone.
Boys 8 to 13: New Ribstone.
Girls 8 to 13: Cresthill.
Boys 13 and over: Cresthill.
Girls 13 and over: Old Ribstone.
Tug of war: New Ribstone.
Young mens 100 yard: E. Dell.
Young Ladies: Miss Cahill.
High Jump: Art Wilde.
Broad Jump: Tom Dallyn.
Tug of War, married men vs single; Married.

Tug of War, married ladies vs single; Single.

Fat Mens race: A. Dallyn.
There were two entries for the fat mens race, A. Rallay and R. Morrison. This race caused considerable excitement as Mr. Dallyn finding his opponent some distance behind waited for him, and taking him by the hand gave him a sprint of some thirty yards.

Whilst the ladies were busily engaged in their strenuous tug of war a violent wind and rain storm sprang up scattering the crowd and leaving the ladies alone upon the field oblivious of the rage of the elements.

The next event was a spontaneous and impromptu half a mile free for all race, in which autos, horses, and

runners competed. The objective being the Municipal Hall, and the prize, shelter. The boy scouts carried the "eats" to shelter in good shape in this run.

The rain precluded all hope of completing the rest of the athletic program, so the cooks got busy right away and soon the waitresses, Miss Elsie Dallyn, Laura Burton, Dot Dallyn and Ada Russell were engaged in keeping the lines of communication onslaughts were being made by the happy children.

The dance opened with thirty Basket Ball Jazz Orchestra furnishing delightful music, accompanied by Mrs. R. W. Etson, Messrs Allen Tenant, T. W. Young, and A. Hale until 3.30 p.m.

The teachers of the three schools tender thanks to all who helped through the day, and also to the orchestra.

and Macklin boys were keyed up to the last notch and played as if their very lives depended upon the result. Neither side permitted their opponent a single run, and only the gathering darkness put an end to this Spartan struggle. There being no score, it was decided that the first and second money should be put together and divided equally between the contestants. It's sound advice to keep your balance—personally and financially.

Prof. W. L. Carlyle, manager of the Prince of Wales ranch at High River, has returned from a trip to the Old Country, and has brought cattle and sheep with which to stock the prince's ranch. Included in the first shipment, is Will Somers, of the stables of King George, one of the best known and most consistent winners on British racecourses of recent years.

Prof. Carlyle speaks encouragingly of the British market for Canadian stocker cattle, and says the British importer demands well-bred stock, and advises Canadian breeders and ranchers to pay more attention to breeding what the British market requirements call for.

EDGERTON ECHOES

Born to Mr and Mrs S. V. Snyder, on Tuesday, July 3rd, a daughter, the mother and daughter both doing fine.

An interesting ball game was played on Friday evening between McCafferty and Rosemoynie on the farmers' diamond resulting in a win for McCafferty 11 to 9. Four times these teams have arranged for games and as many times they were nearly washed off the diamond. It seemed a game between these teams always brought rain—not an unwelcome happening to the rest of the community.

Dick is having the time of his life going to the lake now since Mrs D. is gone. Lots of young fellows here but he takes two with him. You're no piker, Dick.

Crop conditions are still fine, and no complaints are being heard.

H. E. Spencer, our Federal member, returned from his duties at Ottawa last week.

Mrs W. F. Redmond is enjoying a visit from her parents.

Cars are in the discard here now with some of our old-time bugs. One thinks he can drive a horse faster than he can his car, so has lately taken up the horse game. Isn't it funny!

"Tot" Morrow motored to Edmonton to spend a holiday. He is at present on holidays from the bank.

Russ Stratton is taking in the rodeo at Calgary, also visiting his company headquarters.

The Misses V. Jackson and F. Smith are taking in the summer school course in Edmonton. They are determined to keep abreast of the times—educationally and are taking this opportunity of adding to their store of knowledge.

Miss V. Wheeler returned from an extended visit to her old stamping grounds, Vera and Unity, and reports having had a whale of a time.

Wild fruit is abundant this summer—our chance to give H. C. L. a real job.

R.M. MANITO LAKE COUNCIL MEETING

Meeting of the Council of the R.M. of Manitou Lake held in the Hall, Marsden, Sask. on the 3rd day of July, 1923.

Present: Reeve Chapman, Councillors Plewman, Wells, Lawson, Smith, Bradley and Mitchell. (All).

Minutes: The minutes of the last meeting were read and approved with the correction of the date of the next meeting to read "July 3rd".

Banking Resolution: Moved that the following resolution be passed: "Whereas it is expedient to raise by way of loan the sum of \$20,000.00 required to meet the current expenditure of the Corporation of the Rural Municipality of Manitou Lake No. 442

Be it resolved, therefore, and the Council of the R. M. of Manitou Lake No 442 enact as follows:

1st. That it shall and may be lawful for the Reeve and Treasurer of the Municipality and they are hereby authorized and empowered to borrow from the Bank of Montreal, at the office of the said bank in the Village of Chauvin, Alta, the sum of \$20,000.00 for the purpose aforesaid.

2nd That the said Reeve and Treasurer are hereby authorized and empowered on behalf of the said Municipality to sign and execute, as representing such advance under the Corporate Seal of the Municipality and deliver to the manager of the

Bank in Chauvin, Alta., the promissory note or notes of the said Municipality payable at the office of the said Bank in Chauvin on or before the first day of December, 1923, with interest thereon at the rate of 7 percent per annum, and also, to execute in like manner renewal thereof, in whole or part, until such advances are fully repaid.

"Passed in Council at Marsden, Sask., this 3rd day of July, 1923."

Letter: Moved that the letter from A. Elson be filed. Carried. (This letter was regarding work done while poisoning gophers).

Division Fencing: Moved that R. G. Bruce be allowed a credit of \$50.00 for diversion fencing. Carried.

Boys Camp: Moved that R. G. Bruce be allowed a credit of \$50.00 for use in connection with the boys Stock Judging Camp. Carried.

Letter: The Secretary was asked to write a very strong letter of protest to the Department of Highways regarding money being spent on our roadways by Government foremen.

Road 3-45-2-3rd: With regard to changing a roadway along the north of the S. E. 3-45-2-3rd to a different location the council would take no action.

An amount of \$3.00 was authorized to be paid to C. Gower for work which he is to do on roads or trails leading to the picnic grounds.

Lashburn Hospital (Union): Bradley That should a petition asking that a Union Hospital district with the Hospital at Lashburn be brought to the Hall it shall be signed by the Reeve and Secretary. Carried

Approval was given by the Council to the Artland Assessment and same now became part of the last Revised Assessment Roll

President Harding met an old friend from Ohio at the reception in the Hotel Muckleback, Kansas City, Missouri, on June 22nd. "Hello, Christy Smith," said the president, holding out his hand to a man who came towards him. "Glad to see some one from back home." Then the chief executive turned to Mrs. Harding. "Here is our old friend, Christy Smith from Galion," he explained. And Mrs. Harding smiled a warm welcome.

An' say your fishin's through?

You bet you ain't; you're going to fish
An' fish, An' fish, an' wait
Until you get a basketfull
Or used up all your bait.

Suppose success don't come at first,
What are you going to do?
Throw up the sponge an' kick yourself
An' growl, an' fret, an' stew?

You bet you ain't; you're going to fish,

ADVERTISE IN THE "CHRONICLE"

The Funny Side Of Life

A clever young surgeon who was rather shy was invited to dinner by a lady who was at least 50 but frivolous enough for 20. At dinner she asked the young surgeon to carve a chicken, and, not having done so before, he failed miserably. Instead of trying to cover his confusion, the hostess called attention to it pointedly, by looking down the table, and saying loudly:

"Well, you may be a very clever surgeon, but if I wanted a leg off I should not come to you to do it."

"No, madam," he replied politely, "but then, you see, you are not a chicken."

"Did you put this man under the third degree?" asked the police officer.

"Yes. We browbeat and badgered him with every question we could think of."

"What did he do?"

"He dozed off and merely murmured now and then: 'Yes, my dear, you are perfectly right'."

The school teacher had pulled out his many bladed knife and was explaining to his class how all the implements were useless but for the modest bone handle.

"Which part of the knife, therefore, do I make the most use of?" he asked.

A boy at the foot of the class very promptly responded: "Please, sir, the corkscrew."

The teacher was giving an exposition on culpable homicide. "If I went out in a small boat," he said, "and the owner knew it was leaking, and I got drowned, what would that be?"

After a short silence a little boy stood up and said, "A holiday for us, sir."

Lecturer: "Now, when a person is deaf, his sight is more acute, for the law of compensation will work itself out."

Student (thoughtfully): "I've often noticed it myself that when a man has a short leg the other is somewhat longer."

It was the natural history lesson and the teacher had sketched on the blackboard what purported to be a deer. As the class did not readily respond to the request to reveal the identity of the animal, the teacher sought to prompt them.

"Now, Tommy," she said, turning to the boy at the bottom of the class, "come, what do you call your sister when you bid her good-night?"

"Garn," came the reply: "you can't kid me that that thing on the blackboard is an old cat!"

Excited Lady (at the telephone): "I want my husband at once, please, at once."

Telephone Girl (from exchange): "Number, please."

Excited Lady (snappishly): "How many do you think I've got, you impudent thing?"

A man named Dodgin had recently been appointed foreman in a brickyard but his name was not known to all the employees. One day while on his round he came across two men sitting in a corner smoking, and stopped near them.

"Who are you?" asked one of them. "I'm Dodgin, the new foreman," he replied.

"So are we," replied the other worker. "Sit down and have a smoke."

Mr Olde: "My dear Miss Youngthing do you think it would ever be possible for you to love a man as—as old as I am?"

Miss Youngthing: "Oh, I might; if he were different from you in every other way."

"Have you forgotten that \$10 you owe me?"

"By no means. Didn't you see me try to dodge you?"
